About Us

C M Combs Construction LLC is a Louisiana-based commercial and institutional construction firm established in 2011. The company delivers new construction, renovations, and facility improvement services for public-sector and commercial clients. With owner-led oversight and hands-on project management, C M Combs Construction emphasizes quality workmanship, schedule discipline, safety, and full compliance with applicable building codes and construction standards.

Past Performance

Institutional Pedestrian Sky Bridge Construction - National WWII Museum

Value: \$3,422,000

Details: Constructed a pedestrian sky bridge connecting museum facilities, including structural steel installation, multi-trade coordination, and integration within an active urban campus.

New Police Station Construction - Orleans Levee District

Value: \$3,186,478

Details: Delivered new police station and vehicle storage facility including building construction, emergency power systems, fire suppression, and alarm systems.

Historic Renovation of C M Combs Construction OR Administrative Office

Details: Renovated a historic residential structure into a commercial office space while preserving historic elements and upgrading systems to meet modern code requirements.
